

WHAT DO YOU MEAN BY RADICAL?

We think Radical Engagement means ANYONE should be able to make a Fun Palace, and we want to help that happen.

We think Radical Participation means ANYONE can go to a Fun Palace and – hopefully – find something there that they'd like to do. And if they can't find anything there they'd like to do, that they are allowed to create something they'd like to do *while they are there*.

We think Radically Local means that, whatever you want to do in your Fun Palace, there is *probably* someone in your community, someone locally, who knows how to do it. (Or who knows someone who knows how to do it!)

We think Radically Community means that YOU, your own community, are best-placed to be your own leaders, your own Makers. We think that we've had enough of flying in experts to tell communities what to do. We think you know.

We think it's radical to say Everyone an Artist, Everyone a Scientist – we believe it too.

And we believe that changing the world, from the grassroots up, locally, in and with community, can happen while having radical FUN.
